SUMMARY

Software Engineer with 2+ years of experience in developing and delivering full-stack applications using Java, Spring, Spring Boot, Hibernate, gRPC, REST APIs, AWS, Git, Maven, and ReactJS. Proficient in Agile methodologies, microservice architecture, and cloud computing. Skilled in problem-solving, debugging, and performance tuning. Passionate about leveraging cutting-edge technologies to build scalable and efficient solutions.

SKILLS

Skills: Core Java, Java 8, Spring, Spring boot, Spring MVC, Hibernate, Spring AOP, gRPC, JPA, REST APIs, AWS, Git, Maven, Design Patterns, Data Structures & Algorithms, JWT, MySQL, OracleSQL, JUnit, Mockito, Performance Tuning, JSON, JSP, ReactJS, log4j, Ansible, RHEL 8, Linux/Unix, Eclipse, Tomcat, SonarQube, Blackduck, Seeker, Splunk, Postman, Debugging, Troubleshooting, Problem Solving, Agile, Docker, HTML/CSS, Jenkins, JIRA, Microservice Architecture, Java
Languages: Hindi, Kannada, Marathi

CERTIFICATIONS

Oracle Certified Associate – Java SE 8 Programmer certification issued by Oracle.
AWS Certified Developer - Associate certification issued by Amazon Web Services.
First Runner up in BBI organized Hackathon.
Certification in 'Information Security & Cyber Forensics '.
First Place for PowerPoint Representation in an intra-collegiate technical symposium.

PROFESSIONAL EXPERIENCE

Blackbuck Insights Pvt Ltd   **Bengaluru, Karnataka, India**
Software Engineer   *April 2022 - Present*
- Under TransUnion
- Built the Global calculation service that can be leveraged across multiple credit markets around the world for determining the CIBIL and credit score
- Design, document, develop and delivery of the project using Java, Spring boot, Hibernate, JPA and gRPC and RESTful microservice by following Agile methodology
- Took the complete ownership of several modules and worked with the international teams
- Developed an interactive metadata dashboard that helps in analyzing the frequently requested attributes and features which helps in business growth.
- Improved software performance by identifying and resolving bottlenecks in the code.

Cognizant   **Bengaluru, Karnataka, India**
Programmer Analyst Trainee   *October 2021 - April 2022*
- Developed an in-house project at Cognizant focusing on automating file, verification, processing, and communication processes.
- Design, document, develop and delivery of the project using Java, Spring Boot.
- Project goal: Elevate operational efficiency by minimizing manual efforts, ensuring precise file handling, and timely notifications.
- Result: Seamlessly streamlined workflows, reduced errors, and improved overall efficiency through automation.
- Reduced code complexity, ensuring easy maintenance and minimizing technical debt.

PROJECTS & OUTSIDE EXPERIENCE

PROJECT MONITORING SYSTEM   **Davanagere, Karnataka, India**
Fullstack Developer   *September 2020 - February 2021*
- This is a Web-based Framework that reduces manual work required to be done in the existing system.
- Project Monitoring System deals with the action of "Understudy Project Allocation and Management".
- This framework will deal with the database and keep up a rundown of all student branches that have enrolled on this website, direct as set by the teachers.
- Involved Technologies HTML, CSS, Reactjs, Nodejs and PostgreSQL.

EDUCATION

STJ Institute Of Technology   **July 2017 - August 2021**
Bachelor's, Computer Science   *GPA: 7.93*
